

Overall Summary

Saturday, July 8, 2017

Keynoter	Presentations	Networking	Location	Cost
3.7	3.6	3.7	3.3	2.8

1. Other-Specify

Chance to serve and volunteer

Eastern Point of View

2. Most Valuable

1. Career counseling.2. Technology and career.3. The chaos of theory of career and workforce of the future.

1. Different culture perspectives2. Great research updates from professionals3. Great host from local university"The local host is AMAZING!"

1. Diversification of topics2. Cultural perspective3. Panel discussions

1. Interesting presentation2. Great connection and learn from each other.

1. Knowledge and information and presentations2. Networking3. Speakers

1. Knowledge and trends in Career Development.2. What are the ongoing dialogue, research in Career Development.

1. Meeting and networking2. Sharing of ideas

1. Meeting with other career professionals2. The presentations3. Food for the participants

1. Networking2. Sharing information and ideas3. Friendships4. Tour5. Organisation

1. Openness of attendees to share info/best practices and ability (because of size) to know most people.2. Workshops with best practices for supporting international and Chinese students.3. China work policies4. Jim Bright! Amazing!

1. Relevance of the issues and concerns discussed to the practice of career development2. Up-to-date information (labor market) that can be used for developing career intervention programs3. Food and venue superb!4. Very organized and well planned even

1. Research studies and presentation2. Opportunity to network3. Learnings

1. Talks2. Presentations3. Valuable insights

Dynamic ideas of career educators and presentations.

Increasing my awareness of the status of career development in various Asian countries. Also appreciate the opportunity to network with other professionals in the region.

Knowledge shared between nationalities.

Learning from others, benchmarking

Networking

Networking with people with same objective of helping people and enhancing possibility of clients.

NetworkingLearning

Presentations

Presenting and sharing practices and research results.

Researches / Best practices presented

Sharing informally and presentation

Sharing of best practices among participants and speakers.

So many passionate colleagues

The knowledge shared.

Useful presentations

Valuable information for using creatives in career counseling.

What we learn in sessions. Really great stuff. Networking. What I learned about the culture of the location.

3. Different next year

1. Lengthen workshop times for more depth or time for Q&A. Maybe a round tables session for best practices

1. Less choices in concurrent sessions, I find myself struggling and wanting to attend more than 1 session at the same time. 2. More time for Q&A so we can clarify/understand more with the speaker.

1. More panel discussion 2. Mentoring career paths for the fresh/upcoming practitioners by experts of APCDA

1. Reflect more on best practices 2. I would love to see people participate more.

1. Standardize presentation flow. Other speakers do not know how to present their ideas properly due to language issues and integration problems. 2. Some speakers have difficulty integrating concepts/theories to practice. The discussion time may be extend

Add LCD projectors or TV in the venues (at the sides) so that all participants can see the presentation (for plenary sessions)

Additional workshops that is affordable.

Continue to provide quality presentations to update the knowledge and skills of the career practitioners.

Different or more attendees

Everything is good! Thank you for organizing the amazing conference!

Give a presentation to share my experience and expand the network.

Inform all attendance participants in advance

It would be good to have interpreters for speakers whose native language is not English. This will allow the speakers to better present in their native language and answer questions from the audience.

Less "commercialization" presentations, marketing of products under vague titles.

Location

Lunch break was too long, could have had another CEU unit or had another session, folks were bored. Big room noise was difficult, breakout session in big room.

Maybe allow some time for peers to reflect and exchange their learning takeaways.

More panel discussions and experience sharing

More researches from other countries / all member-countries

More structured presentation to help the audience understand better.

Networking sessions (15-20 minutes)

Not sure - it was all terrific.

Panel with powerpoint presentations than can be put on APCDA website. More eastern philosophy "middle way" discussed.

Perhaps a few more vegetarian options for lunch.

Session no. on Certificate of Appreciation (for Monitors)

To have more time to build up "deeper" network by countries, such as overviewing of each country (5 mins in the beginning) which will create more or "deeper" network throughout the conference.

Would like for Session times to be the same, if 20min - all session happening will be 20min; if 40min - all session happening will be 40min. So that timing will be organized.

4. Help feel connected

1. All workshops
2. Network

1. Email Alerts
2. Webinars
3. Journal
4. Newsletter

1. Emails
2. Journal

1. Facebook
2. Periodical Newsletter

1. Newsletter
2. Articles related to career development

1. Newsletter
2. Journal/Research
3. News from members of organization
4. Regional Events

1. Newsletters
2. Updates via email / facebook

1. Newsletters
2. Webinars

Allow each participant/delegate to share their practice (best practices) to other participants through small group activities.

Announcements regarding sessions and access to Directory of Members.

Emails

Facebook

Getting connected over common issues / passion / work

Google hangout best practice follow-ups/mentoring partners to hold each other accountable for executing ideas from conference in everyday work

More engaging speakers. We are career development specialists and we normally do group process. We can use it as an advantage.

More interaction between members.

Networking through social media

Newsletter, list of available contacts in different countries

Reading member profiles in newsletter

Regular newsletters sent, connect thru social media

Regular updates send to email.

Three years of no content or response from Chinese rep to APCDA - both Dr. Li and Gu Dian - need for passionate professionals. I want to work on reviewing the China Career Development Association.

Webinars and a chat room on our APCDA website.
