Henan Museum is located in the **HEART** of China. If you want to understand the rich history and cultural heritage of China's 5,000-year history, Henan Museum is a must-visit destination that you cannot afford to miss. The museum houses over 170,000 artifacts, including distinctive prehistoric relics, bronzes from the Shang and Zhou dynasties, ceramics from various dynasties, jade items, and more

河南博物馆位于中国的发源地，想要了解中国五千年悠久的历史与文化底蕴，河南博物馆是你决不容错过的必访之地。河南博物馆馆藏数量高达 17 萬多件，包含最具特色史前文物、商周青銅器、歷代陶瓷器、玉器等

The Henan Museum covers over 100,000 square meters, with 78,000 square meters of building space. The pyramid-shaped main hall, inspired by the Yuan Dynasty Observatory in Dengfeng, symbolizes the Central Plains as the source of Chinese civilization. Its earth-toned exterior reflects the Yellow Earth and Yellow River, while the light blue window and skylight strip on the facade evoke the grandeur of the Yellow River flowing from the sky.

河南博物院占地面积逾 10 万平方米，建筑面积 7.8 万平方米。金字塔形的主展馆以河南登封元代观星台为灵感，象征中原为华夏文明的源头。土黄色的外墙代表黄土与黄河，而正面浅蓝色的窗户与采光带则营造出「黄河之水天上来」的磅礴气势。

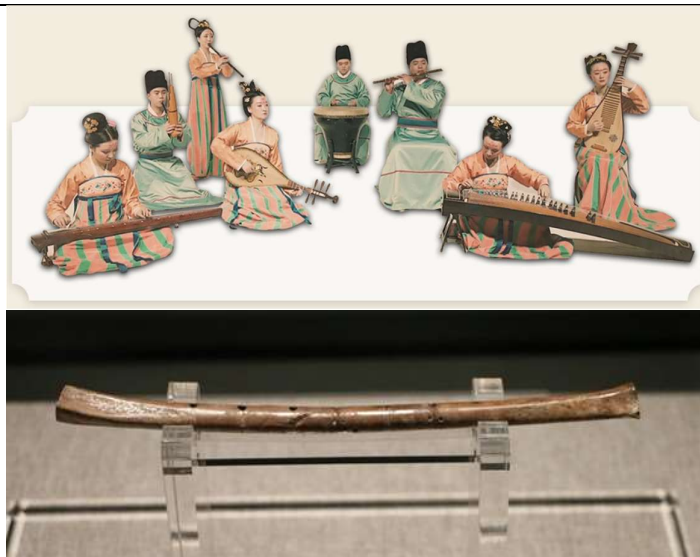

The permanent exhibition of Henan Museum “A great civilization rises with capitals established in the central plain” consists of ten galleries in seven parts: The Neolithic Age, Xia-Shang, Western Zhou, Eastern Zhou, Qin-Han-Wei-Jin-Northern and Southern dynasties, Sui-Tang, Song-Jin-Yuan, which are chronologically arranged. They display the evolution of the dynastic capital city, and introduce the profound history and culture of the Central Plains.

河南博物院的常设展览“泱泱华夏，择中建都”由十个展厅组成，分为七个部分：新石器时代、夏商、西周、东周、秦汉魏晋南北朝、隋唐、宋金元，按照时间顺序排列，展示了朝代都城的演变，旨在介绍中原地区深厚的历史与文化。

Henan’s rich musical history is showcased through a remarkable collection of ancient musical artifacts, making it one of the most distinctive museum collections in China. Over 90% of Henan’s unearthed musical relics are ancient instruments, including the 9,000-year-old Jiahu bone flute from Wuyang, 5,000-year-old clay drums and xun, a Longshan culture stone chime, bronze bells from the Xia dynasty palace, and sets of bells and fish-shaped qing from Anyang’s Yin ruins. The collection also includes chime bells from the Western Zhou’s Ying and Guo states, along with various bells, stone chimes, and zithers from the Zhou period.

河南丰富的音乐历史通过一系列珍贵的古代乐器文物得以展现，使其成为中国博物馆中最具特色的收藏之一。河南出土的音乐实物中90%以上为古代乐器，其中包括舞阳贾湖出土的距今九千年的骨笛、五千年前的陶鼓和陶埙、龙山文化时期的石磬、夏代宫殿的铜铃，以及安阳殷墟的编铙和鱼形磬。此外，馆藏还包括西周时期应国和虢国的编钟，以及周代的各种钟、磬和瑟等乐器。
