

Future-Ready Leadership: Mastering the Art of People and Innovation

by Allan Gatenby

Sun May 25/Mon May 26, 2025

Explore the evolving role of leadership in a world increasingly shaped by technology & AI. Investigate leadership which embraces technology, creating human-centric innovation, collaboration, based upon ethical decision-making. Participants in this 3-hour interactive workshop will discover their leadership style, their leadership potential and explore their capacity to become an intelligent leader achieving better balance between technology, innovation, empathy, and resilience. The workshop explores the importance of self-knowledge, possibility thinking, inclusive & collaborative practice and how to enable the 'collective genius' to drive innovation, inspire innovation, align fundamental human needs and organizational goals to lead transformation. It's time to redefine leadership transforming challenges to opportunities.

"Before you are a leader, success is all about growing yourself. When you become a leader, success is all about growing others."

– Jack Welch
