  - Agree that PAC receive reduced Member rates to collaborate with APCDA; as recommend that we "partner" with other "career counseling related organizations in member countries."
Recommend that Country/Regional Directors identify related professional associations for us to partner or collaborate with such as Society for Human Resource Management.

Recommend we increase APCDA engagement sessions at universities in respective countries.

Recommend that we survey our Professor members about the possibility of creating student chapters on their campuses (maybe a pilot program with those students being eligible for special scholarships and free webinars?) If we can introduce APCDA student chapters, hopefully, it will have a greater impact.

APCDA should offer 15 minute complimentary TED Style webinars free of cost session to attract members on topics mentioned in the annual member survey

We will conduct two New Member Online Orientations; one to occur before the scholarship deadline.

Next Orientation is March 13

Vision:
A forum for sharing career development ideas and practices in the Asia Pacific region and engaging the world
about these insights.
  o Jose moved, Carla seconded. Vote was unanimous.

Mission
  1. To promote collaboration among career practitioners throughout the Asia Pacific region
  2. To inspire existing and potential career practitioners to deliver theory-based and research-driven career development services
  3. To promote research in the field of career development
  4. To advocate for workforce policies and practices that foster inclusion and access to decent work for all
  o Brian moved, Jose seconded, Approved Unanimously.

Organizational Partnership Agreements
  o APCDA Accreditation of a Training Program for Professionals in our Field
    o We already do this for PAC
    o PAC follows NCDA standards and uses NCDA materials (translated to Chinese) in their training
    o Need guidelines about when and how we do this
    o Taskforce include Brian Hutchison, Woongtae Kim, Jose Domene, Carla Siojo, Poh Li Lau, Midori Nonogaki, Momoko Asaka, and Lucy Bance
    o Evaluating such programs is an activity within our mission
    o How do we evaluate programs without bias? – We must not show favoritism. Ask the task force to address this.
    o Our mission is for career practitioners. We need to be careful that we do not try to serve clients.
    o Lucy Bance commented that this will be useful for the Philippines because we do not have enough licensed counselors in the country. Those without license in the Phil. are called career advocates but they do not have an organized training.
    o Midori Nonogaki commented that Japan also has the possibility of introducing things like PAC in the future, so they are interested in joining the taskforce
  o One Year Free Membership for All Graduates of Career Services Training Programs
    o This is not controversial – we all agree on this
  o Joint Membership
    o Local Association collects 50% of our regular fee and sends it to us with contact info for each member
    o The member is added to our database and treated like any other member
    o Possible Benefits of PAC/APCDA joint membership:
      o Representation by APCDA at Local Conference
      o APCDA provides newsletter articles for local newsletter
      o Local Association submits news articles for APCDA’s newsletter
      o Local Association translates some of APCDA’s newsletter into the local language
      o Local Association asks members each year if they plan to attend the APCDA and facilitates group attendance
    o Sending an APCDA Representative to the Local Organization event needs to be carefully defined in the agreement.
      o Marilyn argued that APCDA is offering to send a Board Members (because Board Members do, in fact, represent APCDA) and to pay the airfare to the country using the income from the joint membership so that the “Joint Membership” is a shared commitment between APCDA and the local organization. Shelley had previously argued that the local organization should pay the air fare, but there was general agreement that this was not a “joint” relationship.
      o We agreed APCDA would not pay a fee/honorarium to the speaker, but the local organization could pay such a fee if they wished to have a speaker who required such a fee.
      o APCDA’s cost would be limited to air fare and not exceed the income already received from the Joint Membership (even if that limited the countries from which the speaker could be chosen).
      o We agree to follow legal and ethical practices and to terminate the relationship if there are violations.
        o We currently follow the 2017 IAEVG Ethical Guidelines.
        o Further details will be worked out by the Taskforce.

The meeting was adjourned at 11:42PM
Respectfully Submitted,
